Bidder must use the provided "Pricing Sheet" to submit pricing, delivery areas and guaranteed delivery times, in order to be considered during the evaluation period.

- E. Bids that do not address all areas requested by this RFP may be deemed non-responsive and may not be considered for a possible contract awarded as a result of this RFP.

- G. Bidder should be prepared to accept the RFP and bid for incorporation into a contract resulting from this RFP. If discussions are deemed necessary, they may be used to determine a Bidder's qualifications in greater detail, explore with the Bidder the scope & nature of the project, determine that the Bidder will make available the necessary personnel & facilities to perform within the required time, or discuss compensation which is fair & reasonable. The primary purpose of any such discussions will be to assure that the Bidder has full understanding of the solicitation requirements.

The State will schedule a time for any necessary discussions & provide a date & time for receipt of best & final offers. If during discussions there is a need for clarification or change of the RFP it shall be amended to incorporate such clarification or change.

Bidders will be accorded fair & equal treatment with respect to any opportunity for discussions & revisions of proposals. Prior to authorizing negotiations the RFP Evaluation Committee shall determine in writing that negotiations may be in the best interest of the State. and requirements that must be met, ensure that the vendor will make available the required personnel and facilities to satisfactorily perform the contract, or agree to any clarifications regarding scope of work or other contract terms. During negotiation, adequate procedures will be used to ensure that disclosure of any information, including price, from competing proposals is not revealed. If negotiations are unsuccessful, they shall be formally terminated and the State may undertake negotiations with the next ranked submitting Bidder.

- J. In the event it becomes necessary to revise any part of the RFP, an amendment will be provided on the Idaho Lottery website (www.idaholottery.com/pages/rfp) for all Bidders to access. The original RFP will be posted on the website as well.

Bidders should understand that delivery areas are generalized and not specific, and no award will be considered a guarantee of a specific number of packages per year or be considered a right to deliver packages to any specific retailer. Retailers will be added and deleted based on Lottery licenses issued or withdrawn and based on other needs of the Lottery.

assurance, coverage, delivery schedules, package tracking system, etc. Responses become an official part of the Bidder's proposal response, and will be evaluated and scored (the Bidder's cost associated with oral presentations are the responsibility of the Bidder). 9. ANNOUNCEMENT OF APPARENT SUCCESSFUL BIDDER

The Evaluation Team will recommend the Apparent Successful Bidder to the Lottery Director. If the Director agrees and approves, he will take that recommendation for final approval to the Idaho Lottery Commission at their regular meeting, scheduled on November 15, 2018.

III. LOTTERY PACKAGE DELIVERY SPECIFICATIONS

1. **Workload.** In Fiscal Year 2018 (July 1, 2017 – June 30, 2018) the Lottery shipped approximately 73,000 packages. The specific number of packages by Zip Code and weight are provided in Attachment B.

The Lottery ships two (2) times a week. Unless the week day falls on a State recognized holiday, the shipping days are every Monday and Thursday. In the event of a State recognized holiday falling on a Monday, these shipments are fulfilled on Tuesday. In the event of a State recognized holiday falling on a Thursday, these shipments are fulfilled on Wednesday.

The Lottery generates approximately 1000 shipments of scratch tickets on Mondays and 700 shipments of scratch tickets on Thursdays. These numbers will vary depending on the number of orders and any new game launches and will change every shipment day. This is just an approximation. The tickets are not “live”, such that they can be redeemed for cash, but the Lottery desires that they be treated as if they were “live.”

Orders are packaged in corrugated boxes or polyethylene bags. The sizes of the envelopes and boxes are as follows:

Boxes:

13"x11"x5" 11-17 lbs.

13"x13"x7" 17-25 lbs.

Poly Bag Envelopes (Actual envelope size/size range when filled):

Small 11"x14"/(8.5"x12"x1" ---8.5"x12"x3") 1-4 lbs.

Med. 14"x16"/(8.5"x12"x3.5"---9"x12"x4.5") 4-9 lbs.

Large 17"x17.5"/(12"x12"x3.5"--- 13"x12"x4.5") 9-12 lbs.

2. **Pickup.** All orders must be picked up at the Lottery warehouse at 2740 S. Cole Road, Unit 310, Boise, Idaho, 83709. Shipment pickup must occur in a mutually agreed upon window between 9:00 a.m. and 3:00 p.m.
3. **Coverage requirements.** The Lottery requires ground delivery service to its licensed Retailers, which are retail businesses located throughout the State of Idaho. The Lottery routinely licenses new retailers in the State and the Package Delivery Contractor is expected to provide delivery services to any and all new retailers.
4. **Subcontracting.** Subcontracting to achieve full coverage is allowed if the use of the subcontractor is pre-approved by the Lottery. If Bidder is including a subcontractor in order to fulfill coverage, bids should include the pricing for the subcontractor in their initial bid. Bidders shall indicate their intent to use a subcontractor in their bid. Prior Lottery approval of subcontractors will be a contract requirement and violation may result in termination of the Contract.
5. **Delivery time requirements/upgrades.** Orders must be delivered within **one business day** via ground service. Deliveries must be made within the business hours of 7:00 a.m. to 4:00 p.m. in the respective time zone. If Bidder cannot achieve next day delivery service, they need to specify the guaranteed delivery time. If it is not specified it will be included as guaranteed next day delivery.
6. **Delivery location requirements.** In certain cases, notably large grocery chains, as an example, the Lottery may designate a standard delivery point or person for a retailer, which would appear on the label. The contractor must make delivery directly to the designated delivery person during normal business hours. These designated delivery points will be specified in the list of shipment locations. At this time, there are no such designations in place for any retailers.
7. **Tracking, tracing and signature requirements.** The Lottery requires that all deliveries are handed to a person whose name is to be recorded and be made available to the Lottery within 24 hours upon request. The Lottery requires the ability to track and trace shipments via the internet. Available data available should be no more than 8 hours old.
8. **Technical interface requirements.**

- A. To minimize the labor involved in shipping, the Lottery and successful bidder/contractor must develop a joint-use shipping label which meets both Lottery and Lottery Gaming System Contractor requirements.
 - B. As part of the Response to this RFP, if the bidder requires a specific label or any other specific information that is in current use on the label layout, the bidder shall describe how it will provide specifications that will permit the development of a joint shipping label. Lottery Gaming System Contractor, Intralot, provides computer services to the Lottery. The successful bidder/contractor will be required to interface with the Intralot system (or any replacement system selected by the Lottery). Through Intralot, the Lottery will provide the data file format required for the online shipping application.
 - C. If pricing includes weight, package weights must be calculated by computer, utilizing individual package weights and a calculated total weight as part of the labeling process, rather than weighing each package individually by hand, in order to avoid the labor associated with weighing packages.
 - D. The successful bidder/Contractor's computer system must be able to accept a daily file or manifest with data regarding each shipment, to ensure timely, accurate tracking and billing. Access to this tracking system information must be available to Lottery personnel via the Internet. Data should be updated as near to real time as possible, but never more than 8 hours delayed.
 - E. Upon award, the successful bidder/Contractor will work with the Lottery and Lottery Gaming System Contractor, Intralot, to complete detailed specifications for the file, the transfer process, as well as any equipment or software required for accomplishing the task. Access to the tracking system information must be available to Lottery personnel via the internet. Data should be updated as near to real time as possible, but never more than 8 hours delayed.
 - F. In addition to the previously described joint tracking system, the Lottery operates a separate inventory control system that requires the receiving retailer to scan a Lottery bar code on the joint label upon receiving ticket shipments, indicating they have possession of the delivered package.
 - G. The successful bidder/Contractor is required to utilize a paperless billing system.
9. **List of Shipping Locations. See Attachment C.**
Attached find a current list of retailers at the time of RFP issuance. Because current retailers change constantly, this should not to be considered 100% accurate going forward. The Lottery will provide an updated list at the time of interface implementation and Contract.

10. **Contract and General Terms & Conditions.** Successful bidder/Contractor(s) will be expected to enter into a contract which will incorporate the RFP and successful bidder/Contractor(s) proposals.
11. **Financial Stability.** During proposal evaluation, the Lottery reserves the right to make reasonable inquiry to determine the financial stability and responsibility of any Bidder. Requests may include, but not be limited to, financial statements, credit ratings, references, record of past performance, on-site inspection of Bidder's facilities, or Bidder subcontractor facilities. Failure to respond to said request(s) will be sufficient reason to consider the proposal non-responsive.
12. **Established business.** To be considered responsive, Bidder must, prior to commencing performance, be an established business with all required licenses, accreditation, registration, bonding, facilities, equipment and trained personnel necessary to perform the work as specified in the RFP. All Bidders must have Federal Tax Identifier Number as required by IRS regulations. The State reserves the right to require proof of said requirements including business references within ten (10) calendar days from the date of request.
